# The NIH Public Access Policy

- The NIH public access policy applies to NIH funded papers that have been published, or accepted for publication, in a peer-reviewed journal, on or after April 7, 2008.

- To advance science and improve human health, the policy requires scientists to make the results of their published NIH-funded research available on PubMed Central (PMC).

- Determine if your paper falls under the public access policy and how to comply http://publicaccess.nih.gov/determine-applicability.htm.

When and How to Comply*

1. When preparing a manuscript	Ensure you retain the legal rights to comply with public access
2. When the manuscript is accepted for publication	Post it to PubMed Central and track it with My NCBI
3. When reporting the paper to NIH	Include the PMCID in the citation; see how to cite here

How to Correct Non-Compliant Papers

Submit your paper or check the status in NIHMS. Ensure steps are completed to obtain compliance. → Provide evidence of compliance with a PDF report or a Progress Report Additional Material (PRAM). → For Helpful Hints, see next page or email publicaccess@nih.gov for more help.

*For more information, see http://publicaccess.nih.gov or email publicaccess@nih.gov

Helpful Hints for Non-Compliant Papers

➢ **A [PMCID](#) provides evidence of compliance. Include the PMCID when citing your paper. A PMCID is not the same as a PMID.**

  ❑ What's the difference? [PMID](#), [PMCID](#), [NIHMSID](#)?

  ❑ Anyone submitting an application, proposal or report to the NIH must include the PMCID when citing [applicable papers](#) that they author or that arise from their NIH-funded research.

  ❑ Avoid possible delays in processing your award. Ensure your submitted paper is compliant and receives a PMCID in a timely manner.

➢ **An NIHMSID reference number is assigned when you deposit your paper via the NIHMS system.**

  ❑ The NIHMSID may or may not provide [temporary/provisional](#) compliance**.**

➢ **Regarding NIHMS submissions**

  ❑ Papers may be submitted by the author, the PI, the publisher, or other third party.

  ❑ Approval of the PDF Receipt and PMC-ready documents requires PI or author review.

  ❑ PIs can take over Reviewer responsibilities at any time to ensure the paper gets processed and gets to compliance.

  ❑ Please check the status of papers regularly to avoid processing delays.

➢ **For non-compliant papers, did you?**

  ❑ Submit your paper using the correct [submission method](#)?

  ❑ Mark the paper [Not Applicable (NA)](#) if the [policy](#) does not apply?

  ❑ [Cite](#) your paper correctly?

  ❑ Complete all [NIHMS steps](#) required to process your paper?

  ❑ In error, associate a non-supported paper with your award? To disassociate a paper erroneously reported, contact publicaccess@nih.gov.

➢ **To correct a non-compliant RPPR**

  ❑ Submit a corrected [PDF report](#).

  ❑ Submit a [PRAM](#) via the eRA Commons or via email.
